**Remarks**

In response to the Notice to File Missing Parts of Non-provisional Application dated June 14, 2004, Applicants submit herewith an executed Inventor's Declaration, formal drawings, appropriate fees and a Sequence Listing in both computer-readable form and paper copy. It is hereby certified that the content of the Sequence Listing information recorded in computer-readable form is identical to the Sequence Listing written on paper and contains no new matter.

Applicants request entry of the above Preliminary Amendment and the Sequence Listing to the specification. The amendments are made to correct a typographical error in the numbering of a sequence identifier, and to change a reference to a figure. The amendments do not add new matter.

An information disclosure statement and request for recordation of assignment also accompany this response.

Applicants now request favorable consideration of the application on the merits.
